About RK Pharma

RK Pharma is a pharmaceutical distribution and international healthcare supply company, dedicated to connecting trusted medicines and healthcare products with pharmacies, hospitals, distributors and institutional buyers around the world.

We combine a broad, organised product portfolio with responsive, transparent service — covering sourcing, documentation, and delivery — so our partners can rely on us as a single point of accountability across the supply chain.

Our Vision

To be a trusted global partner in pharmaceutical supply — recognised for reliability, integrity and the breadth of our product portfolio.

Our Mission

To deliver a dependable, well-documented supply of pharmaceutical and healthcare products to our international partners — sourced responsibly, handled with care, and backed by transparent communication at every stage.

Why RK Pharma

- 1 Broad pharmaceutical portfolio spanning multiple dosage forms and therapeutic categories
- 2 Reliable sourcing relationships built on consistent, documented processes
- 3 International supply capability across multiple continents
- 4 Competitive, transparent commercial solutions tailored to buyer requirements
- 5 Documentation support for export, regulatory and customs requirements
- 6 Flexible order handling for distributors, wholesalers and institutions

7 Ongoing distributor and partner support beyond the initial order

8 A customer-focused approach, with responsive communication throughout

Product Portfolio Overview

RK Pharma's catalogue is organised for fast, practical sourcing — browsable by therapeutic category or by dosage form, so partners can find what they need however they think about it.

By Therapeutic Category

Antibiotics / Anti-Infectives

Cardiovascular

Anti-Diabetic

Gastrointestinal

Respiratory

Pain Management

Neurology

Psychiatry

Dermatology

Vitamins & Supplements

Women's Health

Men's Health

Paediatrics

Orthopaedics

Critical Care

Oncology

Urology

Ophthalmology

ENT

Sexual Wellness

Weight Management

By Dosage Form

Tablets

Capsules

Injections

Syrups & Suspensions

Dry Syrups

Eye / Ear Drops

Nasal Drops & Sprays

Inhalers

Creams & Ointments

Product Documentation Standard

Every product in the RK Pharma catalogue is documented to the same standard: product name, generic composition, strength, dosage form, pack size, therapeutic category, manufacturer, country of origin, regulatory status and export availability — giving buyers a consistent, complete picture to base sourcing decisions on.

Prescription products carry the appropriate professional-use notice, and no therapeutic claim is made beyond approved product information.

Export Services

Pharmaceutical Export

International supply of pharmaceutical products, subject to applicable regulations in the destination market.

Product Sourcing

Sourcing of pharmaceutical and healthcare products according to a buyer's specific requirements.

Distributor Supply

Supply solutions for pharmaceutical distributors and wholesalers, structured around order volume and frequency.

Hospital Supply

Support for institutional and hospital procurement, including recurring supply arrangements.

Institutional Tenders

Support for eligible institutional and government procurement opportunities.

Custom Sourcing

Assistance locating specific products to meet a partner's individual formulary or portfolio needs.

Quality & Compliance

Quality is at the core of every shipment we handle. Our processes are aligned with international pharmaceutical distribution practice, and we are committed to full transparency with our partners.

Area	Overview
Quality Assurance	Consistent handling and review processes applied across sourcing and supply.
Regulatory Compliance	Managed in line with applicable pharmaceutical distribution and export requirements; certification and licensing documentation shared with partners as part of the onboarding process.
Product Documentation	Product-level documentation shared as applicable to the item and destination market.
Batch Traceability	Batch-level identification supported through supplier and shipment documentation.
Export Documentation	Commercial invoice, packing list, certificate of origin, certificate of analysis and related documents, as applicable.

Area	Overview
Packaging & Labelling	Export-ready packaging and labelling consistent with destination market requirements.

Our Process

PARTNER WITH RK PHARMA

For importers, distributors, wholesalers, hospitals, pharmacies and institutional healthcare procurement teams.
